CURRENT COMMENT

Our contemporary devotes two columns to a rebuke of the police question in which the latter unanimously which that paper harbors against the Police Committee and Ex-Chief Pat. Person is very obvious. We presume that Justice Scott will also move, be added to the wicked people who try to suggest that a man is entitled to a fair trial. It is probably unfortunate that the King's Will still runs in Alberta and not that of Nelson Darnley Mills and James Hamilton McDonald. We do not think that any good purpose would be served by having another war with the muck rake using the unwary mess which this city has been launched into over the police. We would prefer that the whole thing ought surely to be driven from their position of trust.

For Construction \$114,396.911

Interest for 7 years 28,037.172

Interest for three years added

to cost 12,111.508

Loss of 4 per cent for

40 years 5,781,686

Total \$129,217,551

And this is the scheme that was to cost us \$13,000,000 and not a cent more. The men who carried us into this thing ought surely to be driven from their position of trust.

OTTAWA MINT OPERATIONS.

Ottawa, June 26.—The minister of finance, stating that since the Ottawa mint had commenced operations, on Jan. 7 last, there had been struck silver coinage to a value of \$574,118 and bronze coinage to a value of \$15,233. At the same rate the production for a year would be silver \$687,296; and bronze \$9,487. The amount required to supply the country's demands last year was \$16,000,000; hence, \$9,487, but these could easily be met if the mint operated at full time.

NICTIN OF CALOARY ACIDENT DEAD

Calgary, June 26.—Miss Armstrong, the young lady who was the victim of the recent runaway crash this morning at 3:30 in the Holy Cross Hospital. The unfortunate young lady never regained consciousness. Her brother from Varna is expected shortly and final arrangements will then be made concerning the funeral.

TO MAINTAIN FRENCH LANGUAGE

Montreal, June 26.—Passionate appeals to French Canadians to preserve their language and their customs unaltered by contact with English speaking fellow countrymen, were made in an address delivered last night at St. Jean Baptiste demonstration in the town of St. Louis. Canon Lepelletier pointed out the French language was being interpreted by use of the English words, especially in the industrial and business world, and said St. Jean Baptiste should make it its business to provide proper nomenclature of French business industrial terms. Mr. Arthur Brasseur, K.C., pointed out the danger there was by the foreign element that was pouring in especially in the Northwest, but said if Quebec French Canadian nationality stood firm there was hope for those settled elsewhere.

CLEVELAND'S FUNERAL.

New York, June 26.—With simplicity befitting his final life as a country gentleman, Grover Cleveland was buried at six o'clock this evening in an unpretentious cemetery in Princeton, N.J. From the time the service began at Westland until body was lowered into the grave, less than an hour elapsed. There was no sermon of eulogy from the four well known ministers officiating. Rev. Father Henry, a layman, read a prayer. A hymn, "A Hymn to the Father," was sung. A note, vocal or instrumental, sounded in the service. President Roosevelt gave by special train but came as a private citizen as likewise did Governor Hughes of New York, Governor Fort of New Jersey, Governor Smith of Georgia, and many other prominent men. Roosevelt held more outward signs of emotion than any of those attending. Several companies of the New Jersey militia were on hand to guard duty. Briefly stated, the outlay by the country on the roadbed between Winnipeg and Moncton will be as follows:

Duncan's Condition Powders

FOR HORSES, CATTLE SHEEP HOGS.

On horses it acts marvellously; it gives a good appetite, a glossy coat, a loose skin, a healthy appearance and purifies the blood; even during hard work they gain flesh and spirit. It cannot be equalled for building up broken down horses that are out of sorts and making them sleek, fat and high spirited.

Take None Other--There Is None Just as Good.

ICE BOUND

Portland, Ore., June 25. -- A telegram received here states that the Pacific Coast Steamship Company's steamer, Umatic, worked her way out of the ice yesterday and landed her passengers at Nome. The Umatic took in word that the steamer Ohio, Thelus and Transit, are still fast in the ocean, with no prospect of emerging from their position for some time. The vessels are apparently safe and their crews on board, but they are helpless to prevent drifting with the floes. The telegram does not state the position of the steamer named, but it is assumed that they are drifting south.

The whaler William Bowhead arrived at Nome yesterday with the crew of the lost schooner William Bayles.

BRIDGEGROOM IS MISSING.

Winnipeg, June 25. -- Andrew Letch, chief recorder in the C. P. R., was to have been married last evening to the daughter of the C. P. R. was Mrs. Laura Woodley, a prepossessing young widow of this city. The bride-to-be and a large party of invited guests had assembled at the Woodley residence, but they waited in vain for the groom to make his appearance. It was afterwards learned that Letch had taken the 5.30 p. m. flyer for Minneapolis and St. Paul. Both parties were prominent in social circles here.

SENATE STIRRING.

Ottawa, June 26. -- In the Senate the Manitoba grain bill was taken up by committee. Several amendments by Senator Percy were agreed to; also the proposal by Senator Davis for a special grade for the higher grade of bleached grain with more discretion to inspectors. Senator Talbot's motion to exempt from jurisdiction of the grain board also lost. Senator Davis' amendment, proposing distel and rejected what he regarded after passing terminal elevator, was also defeated. Progress reported.

The Yukon bill, creating an elective council was reported from committee with amendment for auditing accounts for the entire year. The bill provides for only three hundred and sixty four days.

The bill to amend the bank act by providing for the amount of interest on their unpaid capital and reserve, came up, Senator Ferguson approving measure generally understood from the trend of the act that the government intended to inspect the banks regularly. Senator Campbell thought all banks should be required to forward monthly returns to Ottawa. Inspecting head offices would give little protection. Senator Reque understood there were difficulties in the way of inspection which might be studied before the general amendment of the bank act which he understood given its second reading.

MURDER CHARGE.

Glac Bay, N.S., June 26. -- Daniel K. McKinnon and Maurice Gaultre have been arrested charged with the murder of Clifford Murphy. McKinnon and Gaultre were the last persons seen with the deceased, and evidence has been adduced to show that a quarrel took place at a respectable resort, and Murphy received heavy blows on the head.

WASTED TIME

During the month industrial accidents occurred to 324 working people. Of these 122 were fatal and 202 resulted in serious injuries.

There is a matter that demands the immediate attention of the Board of Health and the City Council. On the north side of the road from the Cameron House for a distance of a hundred yards there is a water hole extending along the road which is a perfect fever trap in dry weather, the early part of the week we passed it and the stench was abominable. There is enough latent disease in this ditch to breed a pestilence of its own kind. It should be seen to at once.

A curious incident happened in the case at present being tried on seven United Mine Workers of America are suing the Strathcona Coal Company alleging a breach of the Lemieux Act. A witness was in the box and one of the mine workers witnesses put out his tongue at the witness who immediately told him to do it on the side. When the witness had finished his testimony the two went out into the corridor and the parties in court heard violent scuffling. Justice Pollock instructed the new Strathcona Police constable Maughan to go out and bring the peace breakers in. This was done and a fine of \$2 each was imposed. MORAL: Remunerate contempt of Court is a serious thing.

Bigger Battleships

San Francisco, June 27.—Sir James Elphinstone Erskine, senior of the six admirals of the British fleet, is here on his way around the world, accompanied by his wife and family. In an interview he is quoted as expressing the opinion that the Pacific will be the home of the next world's warfare, though he would not say between what powers. He also expressed his conviction that still planned would be laid down in future greater battleships than ever yet naval programmes, and that the vessels of the Dreadnought type had not reached their fullest development. The tendency, he said, was to put as many guns as could be on a single base.

The admiral, who is making a two years' tour came here by way of the Straits of Magellan. After a few days he will proceed to the Orizaba by way of British Columbia. In 69 years of age, the admiral will retire next year.

GUARANTEEING THE DEPOSITS

Montreal, June 25.—The Bank of Montreal has taken over the Bank of St. Hyacinthe, an action that will guarantee the depositors. This decision was reached this afternoon after a conference between the St. Hyacinthe directors and the Bank of Montreal management.

To-morrow the latter will open up a branch in St. Hyacinthe, occupying the premises of the defunct institution. Heavy advances to the Southern Railway, which went into liquidation, and a steady run caused by alarm following the Banque de St. Jean suspension have been the cause of the move. The closing of the St. Hyacinthe institution. Mon. M. S. Berrier, of the railway commission, and Senator Desjardins, are the heaviest stockholders.

HOLLAND AFTER VENEZUELA

London, June 26.—The Daily Telegraph correspondent at the Hague, learns that Holland has made a claim against Venezuela for redress for the seizure of Dutch ships and mails.

A recent despatch from Willemstad stated that two Dutch sloops, the Marion and the Carmine, lying between Arica, a Dutch island near the coast of Venezuela, and Curacao, were detained by a Venezuelan guard vessel on the high seas off Lavaca, Curacao, in the month of November. The sloops were stopped by shots from the Venezuelan vessel and forced to go to Curacao where they were detained for two days. All letters, the despatch stated, except those in mail bags on board the sloops were detained by the Venezuelan authorities.

Weak Kidneys

Weak Kidneys usually point to weak kidneys. The kidneys, like the heart and the lungs, are the most important organs of the body. If they become weak, the whole system is affected. Dr. Shoop's Restorative is a medicine specifically prepared to reach these vital organs. It is a waste of time and of money to wait until the kidneys are so weak that the urine is dark and strong. If you have symptoms of weak kidneys, or if you have a family history of kidney disease, try Dr. Shoop's Restorative. It is a medicine that will reach the kidneys and restore them to their normal state. It is a waste of time and of money to wait until the kidneys are so weak that the urine is dark and strong.
